

WIDE FORMAT MEDIA

Cost Saving, High Quality Roll Media

DESIGNED FOR
Solvent and UV Solutions

Fujifilm Graphic Systems is pleased to announce the introduction of Fujifilm Wide Format UV and Solvent roll media. The addition of this media complements FGSU's existing wide format portfolio that includes roll and flatbed printers, UV and solvent digital ink, color management RIP software and a full range of technical support, service and consulting will get you "in control" of your wide format solutions. The Fujifilm range of roll media will provide optimal performance in terms of print quality, color development while providing maximum durability and ease of use.

Our range of wide format media was specifically developed to provide optimal performance in terms of print quality, color development, maximum durability, ease-of-use and to keep our customer "in control" of their wide format needs.

The Fujifilm media will consist of:

- Banner Selections
- Adhesive Backed Vinyl
- Wall Graphic Media
- Backlit Media Selections
- Premium Papers
- Canvas Selections
- Perforated Window Film

Full Solution Provider now includes:

- Roll and flatbed printers
- UV and solvent digital ink
- Color management RIP software
- Full range of technical support, service and consulting
- Taskero Universe
- Wide Format Digital Media

THE FUJIFILM GREEN POLICY

We at Fujifilm believe that "sustainable development" of the Earth, mankind, and companies in the 21st century is an issue that must be addressed with the highest priority. As a socially responsible corporation, we actively undertake corporate activities with our environmental values in mind. We strive to be a dedicated steward of the environment and assist our customers and corporate partners in doing the same.
